City, County Officials Plan to Seek Re-Election

Three Redwood City councilmen, who have not yet announced their intentions, will be up for re-election Apr. 9 in the city election. Term of office is four years.

They are Evans A. Fletcher, veteran of three terms, Harold F. Anderson, former mayor and twice elected to the council post, and Carl A. Britschgi, now completing his first term.

None of the three has yet announced his candidacy in the race which opens Feb. 9 when nomination papers may be taken out. No other condidates have indicated yet that they may compete for one of the three posts.

However, city hall observers report it probable all three will take out nomination papers.

Fletcher, a resident of Redwood City since 1929, today declared he was "likely to be a candidate." He is a member of the finance committee and was chairman of the committee which arranged moving of the Southern Pacific passenger depot to its present site several years ago.

Anderson, mayor at the time of the Pearl Harbor attack, aided in organizing the civilian defense units, and appointed the original members of the Redwood City ration board. He also appointed members of the Redwood City Traffic Study Committee.

Britschgi, who has not yet committed himself on the coming election, was first elected to the council in 1942, and has served on the Hospital Study Committee and was more recently named to the Underpass Study Committee.

DR. A. E. O'NEILL

The curtain was raised Wednesday on the San Mateo County 1946 political front with the announcement by Dr. Arthur E. O'Neill, Redwood City dentist, that his hat is in the ring for the position of county executive now held by his onetime ally and friend, Frederick Peterson.

Dr. O'Neill, as chairman of the County Health and Welfare Committee, was one of Peterson's staunchest supporters and at the last supervisorial election, Peterson was in O'Neill's corner, but an open breach was made at election time.

Since that time Dr. O'Neill has indicated he would back a candidate in opposition to Peterson or be a candidate himself. His statement today was the first official announcement of his candidacy for the post.

Dr. O'Neill, in running a close second to Henry W. Edmonds for supervisor of the Third Township in 1944, polled more votes than Peterson did in winning the executive post. O'Neill received 26,293 votes when he ran for supervisor. Peterson received a total of 16,874 votes when he was declared re-elected executive in 1942.

Dr. O'Neill, who has been a resident of Redwood City more than 20 years, has dentist's offices in the Sequoia Bldg. here. He resides at 48 Turnsworth Ave. with his wife, Betsy. He is an overseas veteran of World War I.

Most incumbents in county offices have indicated they will seek re-election at the June Primary.

Mrs. Mary Shields Succumbs at Mills

Mrs. Mary Hull Shields, native of San Carlos and sister of the late Asa Hull, San Carlos mayor, died this morning at Mills Memorial Hospital.

Mrs. Shields was over 80 years old. She was born in the Hull house on El Camino Real, built by her father in 1875. Her husband R. J. Shields of the Spring Valley Water Co. died about 25 years ago.

Mrs. Shields had been in failing health for some time and was taken to Mills Hospital after midnight Sunday.

The late Guy and Asa Hull, brothers of Mrs. Shield, established the Hull Brothers Hardware Store on Broadway and Main St. here in 1904. Ownership of the business was transferred to Mrs. Shield's nephew and neice, Colman and Marie Hull of San Francisco, earlier this year.

Mrs. Shields was employed as head of the tax department of the Southern Pacific Co. in San Francisco until 15 years ago when she retired. She belonged to the Laurel Hall Club of San Francisco, the San Carlos Garden Club and was a charter member of the Redwood City Woman's Club.

Her father, William W. Hull, came to California in 1850 and located in San Carlos several years later. He operated the only brickyard in the county for many years.

Asa Hull was mayor of San Carlos from 1932 until his death on June 27, 1940. He established a large dairy in the county as well as beginning the hardware store here. He was president of the San Mateo County Building and Loan Assn., the first institution of its kind in the county.

Mrs. Shields only immediate surviving relative are her neice and nephew. Neither is married and both are employed in the tax departments of San Francisco banks.

Study Street Improvement In Menlo Park

City Engineer Ed Smith presented plans for the proposed improvement of Santa Cruz Ave. for commercial purposes to the Menlo Park City Council at a meeting in the City Hall Tuesday night.

The proposed improvement of the district, which is one of the main points in Mayor Charles Burgess' 14 point program for civic improvement, would widen Santa Cruz Ave. and provide interior parking lots in two of the blocks West of El Camino Real.

The development would extend West from the highway to University Dr., South from Santa Cruz for half a block and North from Santa Cruz to Oak Grove Ave.

Following an informal discussion by the council members, it was decided that after a property appraisel a public hearing on the proposition would be held where estimated costs and assessments will be presented to residents and property owners of the community.

Final subdivision maps were accepted by the Council for Stanford Gardens, newly annexed subdivision where Palo Alto realtor Floyd Lowe is to construct 95 homes.

Stanford Gardens, westernmost portion of the city, is bounded by Lemon and Olive Sts., Menlo and McDonald Ave.

The council also submitted Stanford Gardens, together with the Morey tract, to the city planning commission for a recomendation on zoning.

A measure was passed forming assessment district 1946-1, bounded by Lemon and Olive Sts. and Menlo and McDonald Aves., for the purpose of installing improvements.

State Teachers Appoint Spinas

Supt. Andrew Spinas of the Redwood City Elementary School Dist. was appointed chairman of the auditing committee of the Bay Section Council, California Teachers Assn., during the council's first meeting of 1946 at the Sir Francis Drake Hotel Saturday, with 125 members present.

Spinas was also appointed to the legislative committee by Council Pres. Cecilia O'Neil of San Jose High School. Dr. James Thornton, Sequoia High School research director, was named to the committee on financing public education and Mrs. Ruth Lepley of McKinley School was appointed to the classrooms teachers committee.

Pansy J. Abbott, San Mateo County superintendent of schools, was named chairman of the committee on better units of administration.

Roy W. Cloud of Redwood City, executive secretary of the California Teachers Assn., discussed legislation pending at the special session of the legislature effecting schools.

Assemblyman Gardiner Johnson's bill providing Child Care Centers until the 1947 regular session of the legislature would probably be favored by the legislators now.

A bill, approved by the State Department of Education and California Teachers Assn., providing $30,000,000 in state funds for building schools in counties and cities, was explained by Cloud. He reported that the measure had not been presented on the floor of the assembly as yet.

Mansfeldt Witness Attempts Suicide

Charles H. Kispert of San Mateo, longtime friend of the late Dr. John Mansfeldt and Mrs. Mansfeldt and one of the key witneses in the Mansfeldt trial in San Francisco, attempted to commit suicide on the Coastside Tuesday, Sheriff James J. McGrath's office reported today.

Kispert, an insurance broker, was found unconscious near his automobile off Coast Hwy. at the Sharp Park intersection by D. W. Deffler of San Francisco. Kispert was treated at a San Mateo hospital and transferred to Alexander Sanitorium in Belmont.

The sheriff's office report states Kispert took an overdose of sleeping tablets.

Kispert had backed his automobile off the road down a hill and had crashed into a tree.

Sheriff's deputies found $207 in Kispert's pocketbook.

Kispert resided at 1421 Drake Ave., Burlingame, at the time of the Mansfeldt trial but recently had moved to 500 Fairfax Ave., San Mateo.

Dr. Mansfeldt committee suicide a few miles north of the spot where Kispert attempted to take his life. Mrs. Mansfeldt was convicted of manslaughter for the killing of a nurse whom she had accused of being in love with her husband.

Survey Indicates Heavy Traffic

Ten automobiles cross the Broadway railroad crossing every minute of the day, according to a check recently made by Aaron Glickman, traffic consultant, who is conducting a survey for the local bus company.

Glickman reported 7806 cars passed the checking point at the crossing between 6:30 a.m. and 7 p.m. recently.

He said 533 of these automobiles made left turns onto California St.

During the daily check, 2013 cars were clocked on California St., he said.

The survey is being made for possible rerouting of the buses.

Mystery Auto Sought in Crash

A motorist and a train engineer who brushed fenders at the Fifth Ave. railroad crossing in North Fair Oaks sent a county ambulance and a California Highway Patrol car on a "mystifying mission" Monday night.

The ambulance and Officers Jay Minton and Charles Eagen sped to the scene upon receiving a telephone call.

Upon their arrival at 10 o'clock they found no train, no car.

Parts of a broken radiator grill and other accident debris were all that substantiated the report.

The Southern Pacific, called by the questioning officers, reported no dented cow-catchers.

Mother's Will Omits Daughter

A San Mateo woman was specifically omitted from sharing in the estate of her mother, it was disclosed Tuesday with the filing for probate of the will of Clementine Van Dorn, who died Jan. 8.

Mrs. Van Dorn specically made no provision in her will for two of her daughters, Agnes A. Jones, 142 Sixteenth Ave., San Mateo, and Lillian B. Faber of San Francisco.

The entire estate is to be divided in equal shares to a son, B. O. Van Dorn, and a grandson, Lucien Crusoe, both of San Francisco. The will was dated June 28, 1938.

Search City Dump For Thora's Body

Confirmation that the Federal Bureau of Investigation had searched the city dump east of Bayshore Hwy., Burlingame, over the week end in an attempt to locate the body of Thora Chamberlain, 15-year-old San Jose girl, came from the Burlingame Police Dept. Monday.

It was reported that books and a pair of shoes belonging to the slain girl had been found, but the FBI today declined to confirm this report.

The FBI, in answer to several questions made by the Tribune, replied merely, "No comment."

Burlingame Chief of Police Jack Theuer said that Saturday afternoon two of his patrolmen came upon several men at the city dump at Burlingame and the men produced FBI credentials.

Sheriff James J. McGrath said his office was not participating in the search.

Thomas McMonigle of San Mateo goes on trial in Santa Cruz Jan. 30 for the kidnap-murder of the Chamberlain girl. McMonigle has changed his story on numerous occasions since he confessed to FBI he hurled the girl's body over a cliff on the San Mateo County Coastside.

It was also reported today that the FBI had discovered a bullet hole in McMonigle's automobile. Ripped upholstery in the car through which the bullet had torn had been repaired. Bloodstained prints, assertedly those of McMonigle, also have been found, it was reported.

$138,000 Housing Permit Issued

Building permits for 23 new homes, totaling $138,000, were requested Wednesday by Paul A. Greene of Greene Bros. Construction Co., City Bldg. Insp. L. M. Duncan announced.

Issuance of the permits brings the total of 70 permits issued thus far this year to $390,375.

The new houses, costing $6000 apiece, will be erected on Johnson St. between Vera and Roosevelt Aves. on the site of the Cumbersom home which was destroyed by fire some time ago.

Last year at this time, permits totaled $20,793.

Duncan pointed out that if granting of permits continues at the rate set the past three weeks, yearly total would approximate $5,000,000.

Credit Dog In Halting S.C. Blaze

A cocker spaniel Monday was credited by the San Carlos Fire Dept. with possibly saving its master's home from destruction and perhaps saving three members of the family from death or injury early Monday morning.

The dog, Sandy, awakened the Cecil Campbell family at 777 Cordilleras Ave., San Carlos, at 6 a. m., and upon investigating the cause of the dog's strange noises, the Campbells discovered a fire on the stairway between the garage and kitchen of their home.

Prompt discovery of the fire limited the damage to smoke damage and burned brooms, San Carlos firemen said. They declared that had the wooden casing in the building caught fire, considerable damage might have been caused.

Mops near a water heater ignited, causing the blaze, firemen said.

Damage of between $500 and $600 was done to a home and furnishings at the end of Bay Rd., East Palo Alto, Saturday afternoon following a mixup which caused a delay in firemen reaching the scene.

Menlo Park Fire Dist. answered the alarm and finding the house some 300 yards outside of its district, laid hose and left it to volunteer firemen to battle the blaze, which is believed to have started from defective wiring.

Meantime, the County Forest service received a call by radio that the fire was in its territory —Bay Rd. in Friendly Acres. County firemen searched Friendly Acres for the blaze and when they could find none, radioed for the correct location. The answer they understood was Clark Rd. and once more a fruitless search was started.

The fire was out by the time the firemen found the correct place.

Menlo Park firemen explained they did not give aid in fighting the fire because they were not covered by insurance outside their district.

Names of the owner or occupants of the shingled frame structure were not secured by either fire department.

Dimes Helped

Richard Shooey, San Mateo store clerk, is shown holding his braces which he can now discard for half a day while walking following treatment for infantile paralysis at the Marion C. French School in San Carlos. Shooey is just one of many victims of the disease sponsored by the San Mateo County Chapter of the National Foundation for Infantile Paralysis. Each dime contributed during the drive ending Jan. 31 goes toward aiding persons afflicted in this county.

City to Ballot On Amendments

City councilman Monday night approved drafting of two charter amendments that may be submitted to the voters for approval in the Apr. 9 city election.

The changes, proposed by Councilman Floyd Granger, would make appointment of the city clerk a duty of the council, rather than of the city manager subject to the council's approval, and would disfranchise city officials who are ex-officio members of city commissions.

The latter would affect the mayor, city attorney and city engineer who would serve in an advisory capacity only and would not be permitted to vote.

Jail Ex-Soldier On Rape Charge

SAN MATEO—Augustus Tavares, 32-year-old discharged soldier and former San Mateo laborer, was arrested early Tuesday morning by San Mateo police on charges of beating and raping a 52-year-old woman.

Police said Tavares was identified as the man whom Mrs. Willa Fautz, 520 San Mateo Dr., said got into her automobile Monday night and beat and attacked her. She was treated at Mills Memorial Hospital for jaw and face injuries.

According to the story given police, Mrs. Fautz was at Bay Meadows Tavern with friends for about two hours. She left alone, but when she got into her car, a soldier followed her into the vehicle and made advances to her. When she ordered him out, he struck her repeatedly.

Tavares, police said, has served a six-month jail sentence for a sex crime.

Roy Simpson To Address Teachers

State Superintendent of Public Instruction Roy E. Simpson will address the annual dinner meeting of the San Mateo County Teachers Assn. Monday night, Feb. 11, at Sequoia High School, Pres. Andrew Spinas reported Monday.

Roy W. Cloud of Redwood City, executive secretary of the California Teachers Assn., has also indicated he will attend, Spinas said. Simpson has not disclosed the topic of his speech.

The meeting is open to county teachers with a capacity of 200 able to attend, Spinas said.

Mrs. J. J. Garland of Menlo Park, president of the California Parent-Teachers Assn.; Mrs. L. G. Evans, 17th District PTA president and Frank Oehm of Millbrae, president of the county trustees association, have also been invited to the meeting.

Spinas is president of the county teachers association, having been elected at the group's one-day institute at Sequoia Dec. 7.

Menlo Park Priest, Sailor Boost County Traffic Toll for Year

Two men died in San Mateo County during the weekend as the result of three traffic accidents. Six persons were hospitalized following the one-car crashes.

Dead were:

The Rev. Eugene P. Connaghan, 39, of St. Patrick's Seminary, Menlo Park, who suffered fatal injuries when his car crashed into a pole on Middlefield Rd. near Dumbarton Ave. in North Fair Oaks Sunday night; and

Thomas J. Beeson, 20, of Daly City, navy enlisted man, who died at Treasure Island Navy Hospital after the convertible coupe in which he was a passenger overturned on El Camino Real in Colma Saturday night.

Father Connaghan was alone as he drove north on Middlefield Rd. and hit a pole at 10:37 p.m. Sunday, California Highway Patrol officers said today.

He was taken to Palo Alto Hospital where he succumbed at 1:35 a.m. He suffered chest injuries and a skull fracture. Cause of the accident was undetermined.

Ralph Zhinazy, 22, of Colma, student at Drew School in San Francisco and life-long friend of the dead sailor, was booked at the County Jail on a drunk-driving felony charge following Saturday night's accident.

California Highway Patrol officers said the car hit a curbing in front of the Cypress Lawn Cemetery. Officers said the convertible rolled over several times.

Zhinazy was taken to South San Francisco Hospital by CHP officers and treated for head and knee abrasions. Beeson was taken to Tanforan Hospital and transferred to Treasure Island.

Father Connaghan was a professor of education at St. Patrick's where he was a student before his ordainment. He had been instructing there since 1934.

Born in Kansas, he received his education in Los Angeles.

He studied at the Catholic University in Washington, D.C., and attended the Graduate School of Education at Stanford University.

He was a member of the Order of St. Sulpice.

The Reverend Connaghan leaves a lister, Alice, and a brother, Hugh, in Los Angeles.

Four persons were injured on Bayshore Hwy. near Mills Field Sunday night when an old model cople driven by Philip H. Methe, 29, Mare Island sailor, overturned to avoid an unidentified car.

Marie English, 29, of 563 Liberty St., San Francisco, suffered bruises, abrasions and possible internal injuries; Arthur Nicholson, 52, 526 Ellis St., San Francisco, suffered scalp lacerations and knee cuts, and Francis Boohicker, 563 Liberty St., San Francisco, was treated for cuts and abrasions.

A Mexican national laborer who apparently was hit by a truck or automobile on Coast Hwy. two miles north of Half Moon Bay early Sunday was in a serious condition at Community Hospital in San Mateo Monday.

The man, who was found at 2:58 a. m. Sunday lying on the shoulder of the road pavement, was unidentified until he regained consciousness for a time Sunday night. He identified himself as Andres Salinas, employed at a Moss Beach ranch.

Three Students Hurt in Accident

Three Stanford University students suffered minor injuries Tuesday night when a couple driven by Roland E. Lee, 22, failed to negotiate a turn on Portola Rd. at Bishop Lane and overturned.

Brewster Arms, 20, and Robert Coate, 21, obtained rides to the Palo Alto Hospital where they were given emergency treatment, the California Highway Patrol reported.

Clothing Collection Piles Up

Firemen John Hart (left) and Lawrence Wood are busy accepting donations by residents in this area who have contributed to the Victory Clothing Drive. Garments may be deposited at either of the Redwood City firehouses. —Tribune Photo

Chickens Win Reprieve

Redwood City chickens were given a reprieve Monday night when Councilman Chester C. Armstrong declared, "Now is the time to amend the wartime chicken ordinance."

"However," he solemnly added, "the situation what it is with eggs, it might be well to make a later effective date."

Councilman Floyd Granger agreed. "When people can't buy meat, it wouldn't be a good idea to eliminate their chickens," he said.

Asbestos is a mineral.

3 Persons Injured In Millbrae Crash

A three-car accident injured three persons on the Bayshore Hwy. near the Millbrae intersection Monday at 5:30 p.m., California Highway Patrol officers reported Tuesday.

Norris H. Royden, 42, 311 North Ellsworth Ave., San Mateo; his wife, and Ray M. Logan, 48, 2131 Poppy Ave., Burlingame, were injured when cars driven by Royden and Burton E. Schwind, 42, United Air Lines pilot of 2531 Woodland Pl., Redwood City, hit head-on.

Royden's car then hit a Greyhound bus driven by James W. Kimball, 27, patrolmen said.

Thirty-five per cent of Canada's total land area is forested.

Butano Purchase Urged in Assembly

State acquisition of the Butano forest moved a step forward Monday when the state assembly passed a resolution clarifying the intent of Assembly Bill 1810 which provides $5,000,000 for the purchase of inland park areas.

Assemblyman Loren Middough of Long Beach, author of Bill 1810, introduced the resolution drafted by Former State Senator Herbert C. Jones of San Jose. The resolution instructs the State Park Commission that the legislative intent of Bill 1810 includes the purchase of the Butano as an inland park area although San Mateo County is a coastal county.

Assemblyman Harrison W. Call of Redwood City urged passage of the resolution from the floor of the assembly shortly before the noon recess. He maintained that the State Park Commission's ruling that coast counties did not come under the $5,000,000 inland park figure had prevented acquisition of the Butano.

"The Butano is one of the last stands of Redwoods in the area. The 5000-acre tract is now owned by a lumber company and the area will be logged off if provision is not made to acquire it for a state park now," Call warned.

He pointed out that nearly all the Redwood area are in coastal counties and no further areas can be purchased for park purposes if the park commission's decision, reached last September at a meeting in Eureka, is allowed to stand.

The resolution, which is not binding on the park commission, will now go to the senate where Senator Harry L. Parkman has indicated he will introduce the measure. Opposition from logging interests is expected in the upper house but legislators backing the measure have promised "a fight to the finish."

The park commission reported last Fall that clarification of Bill 1810 which would allow purchase of the Butano under the $5,000,000 state fund total was necessary before the board could act on Butano purchase. Recently, County Executive Frederick Peterson declared that he understood that the commissioners were opposed to acquiring the Butano.

Assemblymen John B. Pelletier of Los Angeles and Francis Dunn Jr. of Oakland opposed the clarification resolution today on the grounds that the state already has sufficient parks and should spend available funds on improvements instead of acquiring more land.

Who Wants This Bit of Meat?

Redwood City housewives were ready to play for "high steaks" this week after packinghouse workers left their jobs over a wage dispute, curtailing a large percentage of the meat supply. Above several women clamor for a huge steak being held over their heads by a local butchers. —Tribune Photo

YOUR HOME HAS MANY ELECTRICAL SERVANTS—GIVE THEM FULL POWER

When the electric wiring is carefully planned for your home, you can plug-in all your clocks and radios and lamps and appliances to outlets conveniently placed. Circuits and wire size are ample to prevent dipping of lights or voltage drop. An Adequate Wiring job is one of the lowest cost items in any home and should not be neglected.

If you were to assemble all the electric servants you now employ in your home, it would make quite a large crew. You have acquired them from year to year and they have helped you run your home with modern convenience and comfort. Soon now, you will be buying and using many new and needed electrical appliances. Can you connect them up to your present wiring system? Will you have to resort to double and triple plugs or long make-shift cords? And most important, will all these appliances receive full voltage? Plan ahead in 1946 for better living, electrically. Modernize your present home with Adequate Wiring. And for the new home you may be planning to build, check wiring specifications room by room to make certain nothing has been skimped or omitted.

Adequate Wiring means just this.....

1. Plenty of plug-in outlets.
2. Plenty of light switches, properly placed.
3. Plenty of circuits of large enough wire (at least number 12 size) to deliver full electric power now and many years from now.

City Council Approves Bid On Fire Rigs

City Mgr. E. W. Blom was authorized to negotiate with the Seagrave Corp. for purchase of two new 1000-gallon-per-minute fire trucks at a meeting of the city council Monday night.

Blom, after study of four bids submitted in December, recommended the Seagraves trucks be purchased, declaring his belief the company had entered the best although not the lowest bid. The Seagrave's net bid was $22,670.45.

His recommendation, concurred by Fire Chief Mark E. Ryan, was unanimously accepted by the councilmen after City Atty. Paul A. McCarthy declared the council was not compelled to accept the lowest bid which was that of the Buffalo Corp.

Blom pointed out the Seagrave bid may actually be the lowest after the company returned two old rigs to the city. Seagraves, as well as the American La France Corp. offered only $200 trade-in allowance for the old rigs.

"I feel sure we can obtain more than $200 if we sell the trucks. The tires alone are worth more than $200," Blom said. He added the company would grant the allowance price in addition to returning titles to the trade-ins to the city.

Delivery will be about Sept. 1, according to the bid, Blom said.

In his recommendation, the city manager said the shorter wheelbase, permitting sharper turns, was advantageous because "we feel we might sometime be called into the Emerald Lake area" should it in the future be annexed to the city.

"The maneuverability of the shorter wheelbase is highly desirable," he declared.

In addition to the Seagrave's bid, other net bids were American La-France, $23,185.25: Buffalo, $21,848.-12; Mack, $24,813.77.

Proposed amendment of the zoning ordinance to permit dancing and nursery schools in a first residential zone brought forth considerable discussion which resulted in a four to three vote to table the amendment.

The decision to act against the schools only when a written complaint is made by a resident of the area, met with strong opposition from Councilman Chester C. Armstrong who opined the "inconsistency" of the tabling.

"You are willing to spend $10,000 on a master plan—and totally unwilling to now observe the laws that zoned these areas," Armstrong said.

Councilmen George McNulty and Mayor W. W. Hilton voted with Armstrong against the tabling of the amendment, while Councilman Floyd A. Granger, who proposed the motion, voted yes with Councilmen C. A. Britschgi, E. A. Fletcher and Harold F. Anderson.

In other matters, the council Monday night:

1. Voted in short order to sell $200,000 of the $998,000 postwar bond issue "with the hope this can be used this year." The city manager reported $280,000 might be spent on projects this year. Councilman Armstrong said he was against issuing bonds "for funds that won't be used for a long time."

2. Heard Mayor Hilton name Councilmen Anderson, McNulty and Granger to a committee to meet with L. E. Werder regarding construction of a drill track from Chestnut St. along Bay Rd. to open industrial properties.

3. Approved a finance committee recommendation that a charge to cover cost of notifying property owners in a public hearing be paid to the city treasurer and the city attorney subsequently be reimbursed.

4. Placed on the agenda the proposed installation of an eight-inch water main to Bayshore Hwy. after eight of 17 property owners expressed disfavor, one favored the installation, and the remainder asked delay.

5. Moved abatement proceedings against the Rice boarding house at 226 Edgewood Rd., and the Banta upholstery shop on Middlefield Rd. be postponed until the the second meeting in February.

6. Placed the proposed taxicab ordinance on the agenda after several taxi owners explained difficulties in repairing and maintaining meters made this factor of the ordinance objectionable at present.

7. Asked the city manager to investigate proposed construction of a smokehouse at Cassia and Hilton Sts. after three residents objected during a public hearing on the matter.

8. Requested Blom to study feasibility of paving Beech and Lathrop Sts.

9. Approved establishment of 10-foot setback lines on property on James Ave., California and Winklebleck Sts.

10. Asked the city manager to report on necessary repairs to the cross on Jefferson Ave. and possibility of lighting the cross for Easter at the request of the Redwood City Ministerial Assn.

11. Approved a suggestion by Councilman Granger that the agenda be closed at 5 p.m. Friday so that the council would have opportunity to study matters that come before it.

12. At Councilman Britschgi's suggestion, agreed to get a report from the city manager regarding city employes who reside outside the city limits. The matter has been carried over on the agenda for several months.

13. Heard Mayor Hilton report the first meeting of the underpass study committee would be called "this week."

Joseph Caccamo Out of Danger

Joseph Caccamo, Redwood City taxi owner who suffered major injuries in a San Carlos automobile accident Jan. 6, Monday was taken off the critical list at the Treasure Island Navy Hospital.

His improvement warranted his removal from an oxygen tent in which he had been confined since the crash, his ward nurse said this morning.

He suffered a leg fracture and chest injuries.

Emig's Trial Brings Indication of Payoffs To Authorities Here

Enough evidence and intimations may spill over from the Santa Clara County trial of Sheriff William J. Emig and three others on gambling conspiracy charges to "blow the lid" off alleged San Mateo County gambling operations.

An asserted $750 a week slot machine payoff in San Mateo County brought out in testimony Tuesday stirred San Mateo County Grand Jury Foreman Glen O. Smallcomb to make the declaration today that the "grand jury will take cognizance of the situation."

Smallcomb said he had felt for some time that the situation in Santa Clara County is tied in to some extent with this county.

A recorded statement at Tuesday's trial which was attributed to Jack Pacheco, one of the defendants, told of objections to the cost of operation in San Mateo County, and said the payoff was divided among a sheriff, a "George Reilly" and a "Rudy."

It was not clear whether the statment about the sheriff meant Sheriff Emig of Santa Clara County or Sheriff James J. McGrath of San Mateo County.

Meantime, Sheriff McGrath today issued a blanket denial of allegations that he has been paid off.

Dist. Atty. Gilbert D. Ferrell, asked if his office planned to investigate the situation, declared, "We'll take cognizance of any information we get from the trial down there (Santa Clara County) or any other source that applies to affairs in this county."

Dist. Atty. Leonard R. Avilla of Santa Clara County, in answer to a question by one of the jurors, said it could be presumed the reference to "George Reilly" was to George Reilly, member of the State Board of Equalization.

The "Rudy" referred to was identified as Rudy Tretton, whom one member of the San Mateo County Grand Jury refers to as the biggest slot machine operator in San Mateo County.

Tretton, it was declared by a source which did not wish to be identified, will be subpoenaed by the San Mateo County Grand Jury.

The voice identified by Arthur Lucier, sound technician, as that of Pacheco was heard saying Reilly was "out after the money and he tries to get everything." The voice said to be Morgan's replied:

"Well, what—how much is he geting? All he's getting is what he gets out of San Mateo County."

The recorded conversation continued:

P—He ain't getting anything, I know what they pay in San Mateo County."

M—What are they paying?

P—Of course I don't want you to tell anybody.

M—Oh, no, no.

P—You ask about Howland. It's $750 a week.

M—In the county?

P— No, complete.

M—How much did Horn get?

P—I don't know. I can find out.

M—Do you mean that's the gross for the week?

P—That's what they pay a week, payoff.

M—And they split that, these two guys split?

P—They split that.

M—Johnny and Hunter.

P—The sheriff and Reilly and Rudy, that's all.

M—I know, but Rudy shouldn't get much.

P—Huh?

M—Rudy shouldn't get nothing out of that.

P—He don't, he gets part of it.

M—Well, why the — should he?

P—Well, Rudy's collecting.

"Rudy" was understood to be the operator of a night club in San Bruno.

The two voices also discussed how much Rudy should get and decided "a $125 was enough."

The "Pacheco voice" added:

"I'll let Reilly give it to me himself—tell Reilly to come in here once a month—once a month—."

The "Morgan" reply was:

"That's better yet, that's better yet. I—I like that much better. Then—then—we're getting closer. What the hell. With Rudy up there in San Bruno—sakes a'mighty! We didn't have much luck before trying to work with Rudy."

Recreation Committee Given Property Here For Park Expansion

Site for a city recreation center on Hopkins Ave. between King and Lowell Sts., was donated to Redwood City by Daniel R. Stafford, long-time Redwood City resident and former mayor, during the council meeting Monday night.

Elmer Ross, chairman of the Recreation Commission, announced the gift of the valuable real estate to the council Monday and pointed out the site was to be used "for the erection of a suitable building for community, social and cultural purposes."

Deed to the eight lots which comprise nearly half a block, further stipulates the building be erected "within a reasonable length of time" and that the city at all times provide sufficient funds to maintain the building and premises.

Breach of the conditions in the deed will constitute a forfeiture of the property, the deed states.

Mr. Stafford, a native of Redwood City, has long been active in civic affairs, having first entered city service in 1896 when he became city clerk and assessor.

In 1926, he was named to the town board of trustees and in 1930

★ ★ ★

DANIEL R. STAFFORD

was named mayor.

He resigned from the City Planning Commission in 1943 after serving on the commission from 1928.

He was one of the organizers of the Chamber of Commerce here, and was a booster for the establishment of the Port of Redwood City.

Ross praised the generosity of the gift, and was joined by Mayor W. W. Hilton and the councilmen who expressed their thanks.

Ross asserted the gift is the second recent grant of land to be given for recreation purposes, the Leslie Salt Co. previously having donated several lots.

On the subject of recreation, Ross pointed out the commission's "ambitious program at Hawes Park," and he asked the council to consider construction of a Quonset hut at the park for recreation purposes.

The council asked City Mgr. E. W. Blom to study possibility of erecting other types of structures, after the city manager declared "it's not a very attractive type of building."

The council likewise asked the commission to study and plan a building for the Hopkins Ave. site donated by Mr. Stafford, and also report on possibility of bringing up some of the recreation projects set up in the million-dollar public works bond issue.

Council Acts To Speed Up Confirmation

Immediate action on the report of the Redwood City Hospital Study Committee was promised Monday when the city council authorized steps to expedite placing the recommended hospital district proposal on a June ballot.

The council, which will be sponsor of the proposal, will invite city councils in the Sequoia Union High School District area proposed for the hospital district, to join in supporting the proposed formation. This makes the area first in the state to seek establishment of a hospital district.

The sponsors will aid in circulating petitions which must be signed by 15 per cent of those who voted for governor in the last general election, according to legislation under which the district will be formed.

The petitions will be presented to the board of supervisors who will hold a public hearing, charge boundaries of the district if protests warrant, and otherwise act upon objections. The board then calls notice of election in which the majority of the voters must approve.

Under the district plan, authorized by the last legislature, the supervisors name the first board of five directors, and these draw lots for short terms until the next general election in November, 1946, when two terms expire.

In the report, Mrs. Henry Beeger, chairman of the committee asserted, "We have carefully considered the taxation which would result if such a district is authorized, and in our conservative judgment, adequate hospital facilities can be provided . . . at a cost not to exceed 10 cents per $100 value."

The estimate is predicated upon an assessed value of approximately $56,000,000, she declared.

In May, 1945, Dr. T. R. Ponton, hospital authority, reported on a survey he had made of hospital possibilities in the area.

The survey, authorized and paid for by the city council, recommended the proposed hospital for the area be planned for an ultimate capacity of approximately 150 beds, but that only 50 to 75 beds be built at the present time.

Cost was estimated from $500,000 to $750,000.

Dr. Ponton recommended a hospital here be financed through private subscription endowment, or through the district plan which had not finally been enacted by the legislature.

Tanforan Sailor Faces Manslaughter Charge

Howard Woosley, 25-year-old Tanforan sailor who was charged with manslaughter following an accident in November in which one woman was killed and several persons were injured on El Camino in front of the Fat Boy Barbecue here, Monday was granted one-year's probation by Superior Court Judge A. R. Cotton.

Mrs. Eva Mae Reynolds, 24, 154 Buckingham Ave., was killed in the crash.

Health Department Studies Hospital, Ambulance Needs

Planning for more adequate ambulance service in San Mateo County is the subject of two studies now being completed by the county health and welfare department. Charles Uomini, sanitarian with the department, disclosed Monday.

A third study in the process of completion is an examination of the hospital facilities in the county with eventual recommendations pointing toward the need of more hospital beds for emergency as well as routine cases, Uomini said.

The sanitarian with two assistants is determining the number of ambulance calls made in the county last year. Then the surveyors are breaking down the ambulance calls into traffic accidents, emergency illnesses in the home and finally such emergencies as knifings or gun shot wounds, Uomini explained.

He pointed out that the Peninsula Ambulance Service uses two ambulances in the county, Palo Alto Ambulance Service has two, two Community Hospital ambulanes, Mills uses one, South San Francisco employs one for emergencies and Daly City has one.

Major study of the department is the comparison of 1941 and 1945 accident figures to best determine where more ambulance stations are needed in the county on the basis of the number of accidents, Uomini said. The surveyors are checking California Highway Patrol figures, hospital and police records and the county traffic safety commission to chart their trends and curves.

One of the major trends reported in the county study is the decided increase of deaths from traffic accidents in unincorporated areas as compared to cities since 1941, Uomini said. In 1941, there were 35 deaths in rural areas. In 1945, 50 persons died from accidents in unincorporated regions out of a 92 total.

Greatest increase in traffic fatalities in 1945 was, from July to December over similar six months period in 1941, Uomini reported. In 1941, out of every 35 accidents there were 16 injuries and one death.

LT. ELLIOTT COMING HOME

Lt. S. P. Elliott Jr., son of Mr. and Mrs. S. P. Elliott Sr., of Redwood City, is en route home from Pacific Air Command 22nd Replacement Depot the army reported today. He served as provost marshal of the Fifth Air Service Area Command, Far East Air Forces, in Nielson and Nichols Field, Manila.

Lieutenant Elliott entered the armed forces in January, 1942. His wife is the former Marjorie Shelton.

Two-fifths of America's tilled land produce most of its foodstuffs.

GET MORE....SAVE MORE at SAFEWAY IN 1946

They'll revel in reveille when breakfast is right

It's easy to get the family to the breakfast table when tempting aromas fill the house. And Safeway can provide the persuasive foods you need to turn the trick. In breakfast foods, as in *all* foods, *get more and save more at Safeway during 1946.*

How to Put Variety Into Your Breakfasts

A breakfast "Menu-Maker" provides a handy source of inspiration when you're wondering what to serve to make breakfast just a little different. Here are some favorite ideas to combine with others of your own to build a useable breakfast "Menu-Maker" . . .

FRUITS AND FRUIT JUICES

Dress up breakfast fruits and juices by serving them in grapefruit or orange shells.

- Half grapefruit or grapefruit sections sweetened with honey and broiled
- Sliced oranges sprinkled with powdered sugar
- Sliced bananas in orange juice
- Grapefruit sections in grape juice

CEREALS

A good way to get variety in breakfasts is to use different packaged ready-to-eat cereals.

- Hot oatmeal cooked with raisins, dates, figs or prunes
- Hot cereal (oatmeal or farina type) served with brown sugar, honey, cinnamon, nutmeg, jelly, applesauce, syrup or butter
- Hot cereals garnished with dry cereals
- Dry cereal served with molasses or maple-flavored milk (add 1 to 2 tablespoons molasses or maple-flavored syrup to cup of milk)
- Boiled rice with cinnamon and sugar
- Rice cakes with maple-flavored syrup
- Heated shredded cereal with hot milk

BREADS

Here's where you'll find the packaged ready-mixes come in handy.

- Quick coffee cake made from pancake flour
- Popovers from popover mix
- Apple pancakes (add 1 cup chopped apples to 2 cups pancake flour)
- Muffins made from muffin mix varied by adding raisins, nuts, chopped dates, chopped raw cranberries or finely cut apple
- Marmalade muffins made by topping each muffin before it is baked with a teaspoon of marmalade
- Cornbread or corn muffins made from cornbread mix
- Hot scones from biscuit mix

ENTREES

Sunday breakfast is a favorite time for entertaining. Here are some entrees that guests or family are sure to like.

- Scrambled eggs with fresh or canned tomatoes
- Baked eggs with hashed brown potatoes
- Corned beef hash with poached eggs
- Hominy grits with sausage cakes
- Fried scrapple with orange marmalade
- Creamed dried beef with rice cakes
- Scalloped hard-cooked eggs and mushrooms
- Sauteed chicken livers with scrambled eggs
- Jelly or cheese omelet
- Crisp salt pork slices with fried apples
- Creamed codfish with fried potato cakes

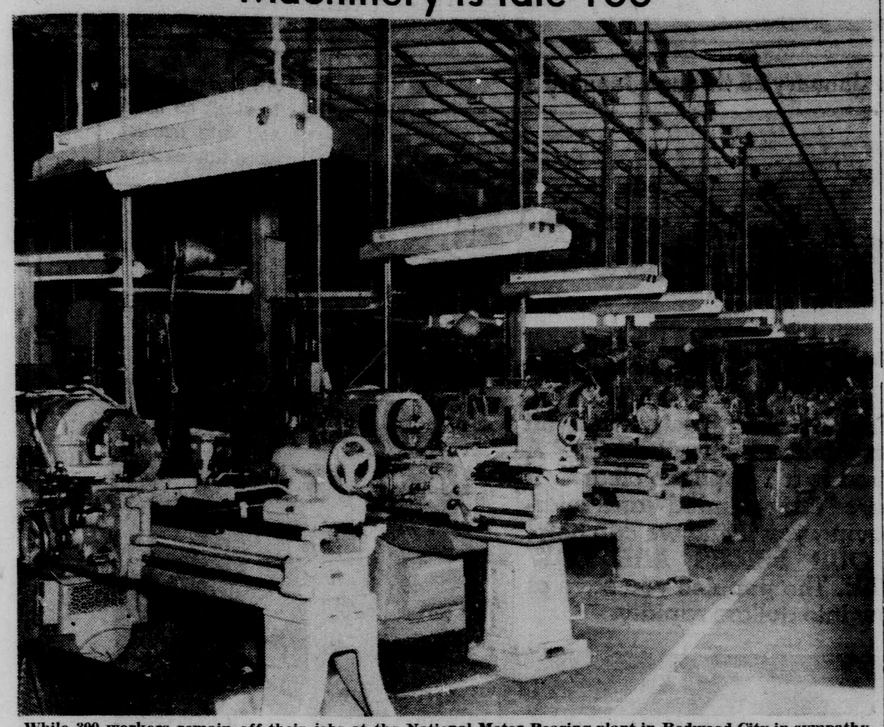
Machinery Is Idle Too



While 300 workers remain off their jobs at the National Motor Bearing plant in Redwood City in sympathy with the machinists' strike, much valuable equipment, some of which is pictured above, must lie unused. Tribune photo)

Over $200,000 in Wages Lost In R.C. During Machinist Strike

BY NITA REIFSCHNEIDER

The strike of Lodge 68 machinists in Redwood City, which will next week go into its fourth month, has to date:

1—Placed nearly 500 persons on the strike-idle list.

2—Cut over $112,000 from the payroll of one plant, approximately $100,000 from another.

3—Caused merchants and bankers to note the decrease in buying power. (Probably 75 per cent of the strike-idle workers live and shop in Redwood City.)

4—Stopped production of sheetrock sufficient enough to complete 350 homes.

5—Halted production of shims and oil seals that would be used on postwar automobiles, refrigerators, washing machines and typewriters.

And that list does not include the damage and suffering done to the human element in the 80-day-old dispute.

The strike was called last Oct. 29 by Lodge 68 which joined the East Bay Local 1304 CIO machinists in demanding 30 per cent wage increases from employers in 200 Bay Area plants and shipyards.

Union representatives last met with the California Metal Trades Assn., which is bargaing agent for the employers, on Nov. 16. At that time the CMTA steadfastly refused to grant more than a 10 per cent increase.

The union business agents have refused to discuss any but their 30 per cent demands.

In the meantime, two picket lines that represent nearly 70 machinists have been respected by five times their number of other union men and women in Redwood City.

Those union men and women include 175 CIO United Auto Workers of Local 76, 150 AFL Cement Mill Workers of Local 760, seven AFL Carpenters, eight AFL Electricians and seven AFL Dredgermen.

These men and women observed the picket lines on the first day of the strike, which was never sanctioned by the AFL of which the machinists were then members. They are still respecting the picket lines, although rather unhappily.

Their individual pay losses in the strike vary from more than $500 to nearly $700, according to the prestrike rate at National Motor Bearing Co. That amount does not include the wage boost negotiated that would have been effective during the three months.

Of the CIO-UAW Int. Rep. Frank Slaby declared, "A few of our members were fortunate enough to get work here and there. None of it is steady."

Hopes for unemployment compensation are hinging upon appeals before the California Department of Employment.

Appeals of workers at the NMBCo. plant were heard in San Mateo Wednesday morning, and will continue in San Francisco next week. Their applications were categorically turned down by local unemployment compensation offices because they involved a labor dispute.

The Cement Mill Workers at the Pacific Portland Cement Co. are likewise appealing their applications.

Unless the appeals are determined in their favor, nearly 300 persons will have to count on their accumulated savings and their own initiative to supplement lost wages. The picket pay rate is far from providing sustenance.

That some are scraping close to the bottom of the barrel is evidenced by the "uneasiness" of some of the workers at the Pacific Portland plant. An officer of one of the union local admitted that "uneasiness" was an indication "we want to get back to work."

Credit men acknowledge a 10 or 15 per cent decrease in the number of inquiries concerning new acounts. "The average working man won't take on credit obligations when the future is uncertain — unless it is for groceries," one man explained.

In the banks, bond redemptions are up, although bank officials cannot tell what percentage is attributed to the labor dispute.

A small number of personal loans have been made to those affected by the strike.

One bank manager suggests the affect of the strike "might be greater than we realize if we made a survey."

While the machinists hold out, several of the non-striking unions have made proposals that might compromise the dispute.

"Those fell through," a labor man said.

At one plant, Belmont Engineering Co., the employer has broken with the California Metal Trades Assn. and negotiated directly with Lodge 68 business agents. There the employer agreed to pay the 30 per cent increase between now and time of settlement of the strike. The union agreed to accept the settlement terms, retroactive to their return to work last week.

But at the other 11 San Mateo County plants, including the two in Redwood City, the employers have signed power of attorney to the CMTA. They refuse to bargain with the machinists directly, and refer all matters to the association.

In the meantime, union agitation grows for a settlement so that work may resume to the pre-Oct. 29 level. And likewise, employer hopes for a settlement are growing. How much money has been lost by the companies remains a trade secret. But it's no secret that idle plants make no profits.

DISCHARGED: Four More Veterans Return to Homes

Sgt. James V. Wakefield of 187 Jeter St. has been discharged from the army at Camp Beale after 26 months service. Wakefield entered the army in November, 1943, was assigned to the service forces and was sent overseas in December, 1944 with the 269th Chemical Service Platoon.

He served as a warehouse foreman and was awarded the Asiatic-Pacific Theater Ribbon, Good Conduct Medal and American Theater Ribbon. His wife, Faye, resides at the Jeter St. address.

* * *

After a year overseas, **Ship's Service Laundryman 3/c Albert Mansfield** has been discharged at Shoemaker. Mansfield served in the Pacific Theater after entering the navy 18 months ago.

The former Sequoia High School student was employed by Pacific Portland Cement Co. prior to serving in the navy. He participated in the initial landings at Southern Korea and Taki. Mansfield's wife, and small daughter, Lynne, live at 219 D St.

* * *

Navy veteran **George J. Fleck** of 810 Fulton St. has been released from the navy at Shoemaker. He served as a boatswain's mate, second class.

Local Inquiries About Airport

Redwood City is among 11 California communities inquiring about procedure in connection with the airport development plan, the Civil Aeronautics Administration acknowledge in Washington, D. C., today.

The communications received at the Washington office of the CAA refelct only a small part of the state's interest, an agency spokesman aid, since many communities are working on plans with CAA regional offices and will not report them to Washington until details are more complete.

Redwood City, included in the CAA National Airport program, made inquiry some months ago.

D.A.V. Chapter In R.C. Urged

In an appeal to approximately 430 Redwood City veterans of World War II who were disabled in service, Dow V. Walker of Newport, Ore., national commander of the Disabled American Veterans, today urged that they band together to form a local Chapter of the D.A.V.

Walker based his estimate on the number of disabled veterans in this community on a per capita average that has been worked out by the D.A.V., which is chartered by Congress as the official voice of America's wartime disabled.

Veterans who have been wounded, gassed, or disabled in any degree while serving in the armed forces during time of war are eligible for membership in the D. A.V. Veterans of all wars are members.

Sequoia Theater Undergoes Face-Lifting

Max Brodie, Redwood City manager for Fox West Coast, announced Monday that the company is spending $40,000 to modernize and redecorate Sequoia Theater. Work, already underway, will be completed in about eight weeks, Brodie said.

Alterations will include construction of a new front, refinishing the interior, and installation of new sound equipment.

BILLY BRAND
STORIES OF HOW NAMES HELPED MAKE AMERICA GREAT
67
HERE'S WHY IT'S CALLED A "LEAD PENCIL".
DURING THE RENAISSANCE ARTISTS USED RODS OF LEAD TO MAKE DRAWINGS OF PALE GREY NOW KNOWN AS "SILVER POINTS".
WAS IT DRAWN WITH A PEN?
NO, JUST THIS PENCIL OF LEAD.
SO...IN 1564 WHEN GRAPHITE WAS ACCIDENTALLY DISCOVERED IN ENGLAND, WRITING STICKS MADE FROM IT WERE CALLED "LEADS".
LOOK--IT'S BLACK!
WE CAN USE IT TO MARK OUR SHEEP.
THIS GRAPHITE WAS SO RARE, IT WAS GUARDED ALL THE WAY TO LONDON. THIN SQUARES OF IT GLUED INTO WOODEN CASES WERE CALLED "LEAD PENCILS".
IS THERE GOLD IN YOUR WAGON?
NO, GRAPHITE FROM THE BARROWDAL MINE.
THE FIRST MODERN STYLE LEAD WAS MADE BY A FRENCHMAN COMMISSIONED BY NAPOLEON TO PRODUCE A SUBSTITUTE FOR PURE ENGLISH GRAPHITE.
GOOD! WHAT'S IN IT?
POWDERED GRAPHITE MIXED WITH CLAY AND FIRED IN A KILN.
COLONISTS WROTE WITH PENS OR COSTLY IMPORTED PENCILS UNTIL SOME PEOPLE IN THIS COUNTRY BEGAN MAKING THEM ABOUT 1800. THOREAU, THE NATURALIST MADE PENCILS FOR A TIME.
LOOK WHAT CAPTAIN JOHN GAVE ME!
TAKE GOOD CARE OF IT AND IT MAY LAST 'TILL YOU'RE THROUGH SCHOOL.
MACHINES WERE INVENTED TO MAKE MANY PENCILS, CUTTING THE COST OF EACH. NAMED BY THEIR MAKERS--THEY WERE HAND-TESTED TO MAKE SURE EACH BATCH WAS UP TO STANDARD.
IT'S AN AWFUL SLOW JOB, MR. JONES.
AND NOT COMPLETELY RELIABLE, EITHER.
TODAY OVER 100 LABORATORY CONTROLS ASSURE STRENGTH, SMOOTHNESS AND WEAR OF MANY TRADE-MARKED PENCILS AND RESEARCH KEEPS BRINGING STILL MORE IMPROVEMENTS.
EACH PENCIL MUST PROVE IT CAN MAKE A MARK OVER 35 MILES LONG!
GOSH! LE'ME SEE THE NAME ON THAT ONE!

Start Sweet Peas Indoors To Insure Long Harvest

Sweet peas should flower before the weather turns hot, so an early start will prolong their flowering season. There was a time when experts thought they should not be transplanted, but this is not true of modern varieties which may be started indoors in late winter or early spring, February being a good month.

Take care in preparing pots or flats, using good soil in a container which allows for perfect drainage. Fill to about an inch and a half from the top, and add a layer of reasonably fine, not sifted, builder's sand, washing it first to eliminate vegetable matter.

Seed should be pressed down into this sand to a depth of half an inch. Finally, firm the sand over the seed and water thoroughly, allowing it to drain for an hour or more. Sweet pea seed has a tendency to rot, but if it has adequate drainage and is set in sand this danger is minimized.

Now set your pot or flat in a warm, dark place, where the temperature is maintained at 60 to 65 degrees, and cover with a piece of glass. The glass should be removed daily and wiped; if the sand feels moderately dry, however, spray with tepid water. In ten to fifteen days the seeds will have germinated, and the temperature should be lowered to about 40 degrees, a few degrees at a time over a period of a week.

Keep the seedlings in this cool atmosphere continually, giving them plenty of light. These circumstances will allow for sturdy root growth at the expense of top growth which is not needed. When they are 4 inches tall, transplant three to a 3-inch pot or about 2 inches apart each way in a flat, keeping them out of the sun for a week to harden them to the new situation. Pinch out the tip of leading branch when 5 inches high. When danger of severe freezing is over, you can keep them in the cold frame until time to set in the garden.

SWEET PEA SEEDLINGS
SEEDS MAY BE STARTED IN FLATS 5 INS. DEEP - 2 INS. APART IN ROWS.
GLASS COVER
CLEAN SAND
GOOD GARDEN SOIL
STONES AND BROKEN POTS FOR DRAINAGE.
KEEP FLATS AND POTS IN COOL, DARK PLACE UNTIL SEEDS HAVE SPROUTED. PINCH OUT TOPS WHEN PLANTS ARE 4 INS. HIGH.

How to start sweet peas early.

Filing Dates Set For June Election

Prospective candidates for more than a dozen county offices have slightly more than a month before they can start circulating nomination papers for the June 4 election, County Clerk William H. Augustus declared Tuesday.

Opening date for circulating nomination papers is Mar. 6. Final date for filing is Mar. 26 at 5 p.m.

Candidates for superior court judge and justices of the peace must file declaration of intention to run between Feb. 5 and Mar. 1.

Candidates for all county offices paying salaries of more than $2500 a year must pay a filing fee of 2 per cent of one year's salary, Augustus said. Candidates for posts paying less than $2500—supervisors—must pay $10 fees.

Terms of all county officers expire this year except three supervisors and Superior Court Judge Aylett R. Cotton. State Sen. Harry L. Parkman likewise does not have to seek re-election this year.

Supervisors whose terms expire are Martin A. Poss of San Mateo and Chmn. Edward R. McDonald of Burlingame.

Edmund Scott, appointed last week by Gov. Earl Warren as superior court judge subject to approval of the board of governors of the State Bar Assn., must seek re-election at the June 4 primary in order to hold the post.

Others whose terms expire at the end of this year are County Clerk William H. Augustus, Recorder T. Clark Rice, Assessor Martin J. Flynn, Supt. of Schools Pansy J. Abbott, Sheriff James J. McGrath, Engineer M. A. Grant, Executive Frederick Peterson, Dist. Atty. Gilbert D. Ferrell, Coroner William F. Cresby, Treas. A. H. Sagehorn and Tax Collector Ralph MacArthur.

The term of Assemblyman Harrison W. Call also expires this year.

Supervisors who do not have to seek re-election this year are Alvin S. Hatch of Half Moon Bay, Thomas L. Hickey of South San Francisco and Henry W. Edmonds of Redwood City.

Side saddles for women were first used in England by Queen Anne in 1388.
